SUMMARY

Investment analyst with a track record of supporting large-scale portfolios and high-profile transactions, combining technical expertise with strong interpersonal and organizational skills. I excel in fast-moving environments, bringing discipline, adaptability, and a collaborative mindset. Hard-working and open to new experiences, I enjoy taking on responsibility, leading initiatives, and translating complex analysis into actionable strategies for diverse stakeholders.

EXPERIENCE

Investment Analyst

Skjerven Group (February 2023 – Present, Berlin)

- ✓ Built and maintained a €5bn acquisition pipeline, screening 30+ broker offers daily and selecting high-potential assets based on yield, location, and unit structure.
- ✓ Produced DCF models, rent roll analyses, and exit scenarios that directly informed €2bn of acquisition and sales decisions.
- ✓ Partnered with the CEO and Investor Relations team to pitch business plans to institutional investors (e.g., BlackRock, Bain Capital, Nuveen), securing buy-in for new portfolios.
- ✓ Delivered market research and comparables analyses (CBRE, Savills, ImmoScout, Gutachterausschuss) that shaped pricing, negotiation strategy, and capital allocation.
- ✓ Coordinated end-to-end transaction processes, from NDA preparation and data room setup to investor reporting and closing documentation.

Crypto & Stock Trader

Private Trading Group (January 2019 – January 2021, Tehran, Iran)

- ✓ Actively traded equities and crypto with a focus on price action, market cycles, and technical setups, achieving ~20% average annual returns.
- ✓ Grew portfolio AUM by ~45% over 2 years through a mix of swing trades, position trades, and selective long-term holds.
- ✓ Applied fundamental drivers (earnings, macro events, sector trends) alongside technical analysis to build conviction in trades.
- ✓ Prepared equity research notes and trade strategies for various industries and digital assets.
- ✓ Developed a systematic approach to risk management: position sizing, stop-loss placement, and capital allocation across asset classes.
